Hi Ed, the 13th is the deadline for the CRA tech panel to provide any additional comments on the revised draft of the CRA Guidelines. I've primed the pump on the review team with the email I sent last Thursday (see below). Unless we receive some last minute comments, I'm prepared to send out the attachments with the text below to the review team. If you prefer, I'll send it all to you as the review team chair and you can send it to the members of your team. I've proposed a means for review team members to register their response directly to you, so that you at least have an opportunity to deal with any lingering problems before we need to take it back once again to the writing team. Let me know if this approach works for you and how you would like to proceed.

Lawrence

CRA Guidance Review Team:

Attached please find links to a [previous version of the draft CRA Guidelines, response to comments from the initial review](#), and three attachments:

- Clean draft of the revised draft CRA Guidelines ver2019
- Compared version of current and previous draft CRA Guidelines
- Brief writing team response to comments received following last round of review

Although only a couple reviewers had additional comments following the last review, all reviewers should look at the changes to provide a concurrence to the Review Team Chair by January 16. If you are not in concurrence, or concur with comments, please discuss your concerns with the Chair.

CRA Guidelines Review Team,

The CRA Guidelines writing team has completed a revision of the document and it is receiving a review by the CRA Technical Panel. It will be ready for you to look at again mid-month. This cycle of revision took considerably longer than expected. However, we hope that the recent revision will address the last set of comments received from a couple of reviewers to permit the review team to approve the document for external peer review.

I expect to provide the revised draft to you the week of Dec. 16, 2019.

Best,
Lawrence
